you're covered.

CAN I STILL GET COVID-19 VACCINES FOR FREE?

Yes! You're covered — COVID-19 vaccines are widely available at no cost to you.
COVID-19 has not gone away, and updated COVID-19 vaccines continue to be available to everyone in the United States free of cost. You may have heard about upcoming changes to how COVID-19 vaccines will be paid for, but even as these changes take place, COVID-19 vaccines will still be available and fully covered — free of cost for almost everyone.

children

- Medicaid
- Children's Health Insurance Program (CHIP)
- Tricare
- Private insurance
- Children without insurance

CHILDREN ARE COVERED FREE OF COST

The Vaccines For Children (VFC) program is a federally funded program that provides vaccines at no cost to all children who might not otherwise be vaccinated because of inability to pay.

adults

- Medicaid
- Medicare
- Tricare
- Private insurance[+]
- Adults without insurance[++]

ADULTS ARE COVERED FREE OF COST

COVID-19 vaccines are currently free through the federal government. Starting in the fall, vaccines will be covered through a combination of public and private programs.

[+]All private insurance plans — except certain pre-Affordable Care Act "grandfathered" plans — must provide vaccines at no cost.

[++]The Bridge Access program, administered by the CDC, is a public-private partnership starting in fall of 2023 to provide COVID-19 vaccines free of cost to uninsured or underinsured adults.
